

MATRAX LDS FLUID

Description

Synthetic hydraulic fluid for vehicles equipped with hydractive 3 and 3+ suspension.

Application

Orange synthetic hydraulic fluid formulated with additives that improve the Viscosity Index. Especially recommended for vehicles equipped with the hydractive 3 and 3+ suspension used by PEUGEOT-CITROËN.

Technical characteristics

Low viscosity: to ensure suspension, power steering and braking functions at very low temperatures.

High Viscosity Index: which gives it good thermal stability

Technical information

Parameter	MATRAX LDS FLUID
Kinematic viscosity @40°C (cSt) ASTM D 445	21
Kinematic viscosity @100°C (cSt) ASTM D 445	6,5
Viscosity index ASTM D 2270	290
Flash point (°C) ASTM D 92	>160
Freezing point (°C) ASTM D 97	-51
Appearance	Fluido cor laranja

Approvals and Recommendations

PSA S712710

All packaging must be stored in covered facilities. In cases where outdoor storage is unavoidable, the drums should be placed horizontally to prevent the possible infiltration of water, as well as their deformation. Products should not be stored above 60°C, exposed to direct sunlight or low temperatures. We advise you to read the safety data sheet carefully for more information on its use and handling.
